

GUIDE TO SETTING UP YOUR 'EASYFUNDRAISING' ACCOUNT

<p>1.</p>		<p>Go to www.easyfundraising.org.uk. Click on the green box 'I want to SUPPORT a good cause or challenge'.</p>
<p>2.</p>		<p>In the green box 'Choose a good cause' type 'Ellesmere Community Nursing Home', then click on 'Find'.</p>
<p>3.</p>		<p>Select 'Ellesmere Community Nursing Home - Shropshire' by clicking on the green box 'Support'.</p>
<p>4.</p>		<p>Enter your personal details on the next page, and then click the green box 'Proceed'.</p>

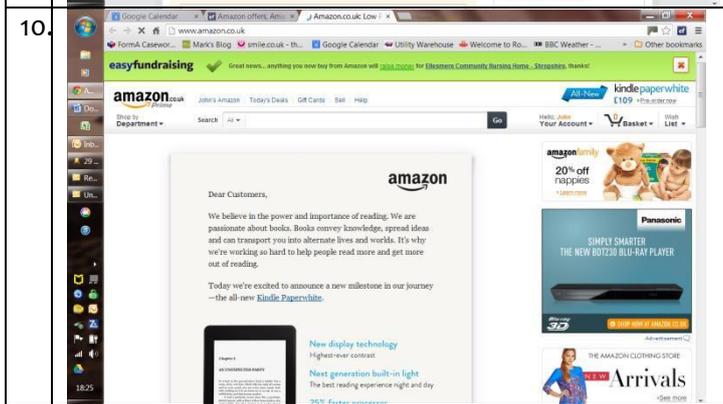

5.		<p>You will then be offered the option of installing the 'Find & Remind' toolbar. You can read how it works on this page, but, in brief, it will automatically indicate to you (see below) every time that you go onto a website that offers a donation when you use the website to shop etc.</p>
6.		<p>The 'easyfundraising' toolbar (the yellow band at the top of this page) pops up whenever you go to a website offering a donation (in this case amazon.co.uk), and all you need to do is click on 'Claim donation'. (The toolbar then drops away.)</p>

If you are using a computer/tablet using the Android or Apple operating system (OS), the OS will not allow you to set up 'Find & Remind'. In this case you can still of course use 'easyfundraising', but you will need to begin each online shopping transaction by going first of all onto the 'easyfundraising' website and signing into your account by clicking the 'Sign In' point in the top right-hand corner, and then proceed as below.

7.		<p>Sign in to your account by clicking in the top right of the screen where it says 'Sign in', and then typing in your email address and password.</p>
8.		<p>Type in the retailer and click 'Find' or select from 'Your favourite retailers'.</p>

Then just click on 'Go shopping' and it will take you to the retailer's website.

And off you go again on your retail therapy, which will also benefit the Nursing Home. Thank you.
